

Listing ID: 1054

Company Name: Vijesh & Company

Description: The company is promoted by the dynamic technologist Mr. Mahesh Kinger who is in the field of confectionery since 1970. Mr. Mahesh Kinger started his career with small scale industries in Mumbai. For starting his own venture, he came to Ahmedabad and developed fully automatic plant, with English machinery to manufacturer toffees and candies under the brand name of "SIMCO". But he was an engineering research oriented brain. He wanted to be more into technology driven business so he established a unit to manufacture confectionery machinery at Vatva, Ahmedabad in 1978. In other words he is a pioneer in manufacturing confectionery machinery. Mr. Mahesh Kinger was looking after R&D, Production, Quality control and after sales services. But in group work he didn't get open sky as he wanted to make a complete technology driven organization, he established a new unit name Vijesh & Company in GIDC Vatva, Ahmedabad. Here he brought about revolution in machinery and developed many new machinery. With the latest technology he exported with his own license within a year. Business The following constitute the standard features and USP of our machines: Operational simplicity Flexibility Interchangeability Long term reliability The Company maintains a well-monitored distribution network in India with worldwide online connectivity, and is continually abreast with modern advances in auxiliary healthcare support systems. Performance by Ingenuity & Design Adaptation for distinct & specific client requirements is actually acknowledgement of custom needs in a changing market. To achieve and fulfill this a combination of modified configuration, optimal cycle time, and realistic cost of the machine, CAD solutions, and product research by specialised engineers and technicians was initiated as "standard and flexible options". Vijesh's engineers and designers ensure better profitability, better productivity by minimal power consumption & competitive

pricing.

Our Services

Vijesh & Company has earned good credit for its after-sales service. It provides after sales service around the clock.

Also on offer is the Complete Processing Project. Whole confectionery manufacturing plants are set up for clients who prefer a synergic working between the various processes for the obvious and extra advantages in terms of production time, elimination of down time losses and economic power utilization.
